

What can we learn from the 2021 solar energy conference?

Despite limitations, the 2021 event was once again able to present a wide range of new findings in the fields of batteries, thermal energy storage and power-to-gas, as well as solutions for storage in private households and industrial heat supply. In the digital format, participants were able to contribute in different ways.

What is the energy storage global conference 2022?

Following the success of last year's hybrid event, despite the complex context of the health crisis, the conference gathered more than 350 participants and over 100 speakers from 37 countries worldwide; this year, the Energy Storage Global Conference 2022 will attract over 500 top-level energy storage professionals and policymakers.

Why was IRES 2021 held in digital format?

IRES 2021 was held in digital format due to the Corona pandemic. Despite limitations, the 2021 event was once again able to present a wide range of new findings in the fields of batteries, thermal energy storage and power-to-gas, as well as solutions for storage in private households and industrial heat supply.

What is IRES 2021?

Over 15 years, IRES thus creates a platform for the important pillar of the energy transition. IRES 2021 was held in digital format due to the Corona pandemic.
