

Who is Yinlong Energy?

Yinlong Energy International Pte Ltd is a company that provides Energy Storage Systems, LTO Batteries, Commercial Electric Vehicles, and Electric chargers. They are ideally suited to meet all your city, highways, and rural transportation requirements.

How many new energy buses are sold in Yinlong & Yutong?

In July, Yinlong sold 1,399 units of new energy buses with a market share of 7.22%, ranking the fourth place in the market. In the same month, Yutong sold 665 units of new energy buses with a market share of 25.39%.

What are the products offered by Yinlong Energy?

Our highly adaptable electric buses, coaches, and vans come in a wide range of sizes and shapes. They are ideally suited to meet all your city, highways, and rural transportation requirements. Yinlong Energy International Pte Ltd, is the international office of Gree Altairnano New Energy (previously known as Yinlong Energy China Ltd).

How much did GREE pay for Yinlong?

Gree has paid CNY1.83 billion (USD282.9 million) for 30.47 percent equity in Yinlong, which also makes electric buses, electric vehicle charging devices and other energy storage systems, the Zhuhai, southern Guangdong province-based firm said today.

Will Yinlong technology boost GREE's market share?

The application of Yinlong technology in Gree's car products which will also help boost market share, it added. The shares were put up for sale by a local court as Yinlong's ex-chairman Wei Yincang is wanted by police for allegedly embezzling CNY1 billion (USD154.8 million) of corporate funds.

What is the operational lifespan of Yinlong's batteries?

Our fast-charging Lithium-Titanate batteries are designed to function reliably even in the most adverse temperature conditions. With a remarkable operational life-span of up to 30 years, the batteries are built to provide long-lasting performance.

Hitachi ABB Power Grids and Yinlong Energy collaborate to make urban bus transportation green and cities carbon neutral ... Switzerland 16-03-2021. ... Electric Trucks and Energy Storage Systems (ESS). Yinlong's LTO batteries have earned a global reputation for being the world's safest and fastest charging lithium batteries that are best ...

In the same month, Yutong sold 665 units new energy buses with a market share of 25.39%. CRRC Electric came the second with a sales volume of 427 units new energy buses and a market share of 16.30%. Yinlong sold 420 units buses with a market share of 16.04%, ranking the third place in the market.

According to the appraisal committee, Yinlong "s project of "R& D and Application of Key Technology of High-Safety and High-Rate Energy Storage System" is of great technical difficulty and demonstrates significant level of innovation and the core technology has independent intellectual property rights.

The Yinlong hydrogen-titanium powertrain technology combines the advantage of high energy density of the hydrogen fuel cell and the advantage of high-power density of the LTO batteries. The combination of the two helps to achieve an ...

An agreement on the cooperation of 2,000 LTO electric heavy-duty trucks was recently signed between Yinlong Energy and SAIC Iveco Hongyan Commercial Vehicle Co. Ltd (SAIC Hongyan). The two companies entered into strategic partnership to explore in depth the cooperation and technical innovation in the field of new energy heavy-duty truck.

By combining their technology leadership and expertise, the two companies offer customers a complete optimized e-mobility solution, comprising Hitachi ABB Power Grids" Grid ...

Yinlong new energy buses accounted for 420 units of the July sales figure, ranking the third in the industry. Its sales figure from January to July is 1399 units, ranking the fourth in the industry. Currently, the industry of new energy vehicles has entered a new stage where ...

Share to: Date:2021-05-19 Article Source: ... Up till April 16 th, 2021, Yinlong Energy has applied for 2990 patents and was authorized 1908 patents, ... With years of efforts into the research of energy storage technology, Yinlong has always been exploring application of ESS in different fields: LTO container typed ESS to assist the ...

That Yinlong was listed in the " Global Top 500 New Energy Enterprise " for a 6th consecutive year shows

the recognition from the industry of the significant contribution by Yinlong in the field of new energy automobile and energy storage systems. The year 2020 is a crucial time in winning the "battle to protect the blue sky".

The committee also declared that it has reached "international leading" level in the field of LTO electrochemical energy storage technology. This project was carried out with a focus on the ...
