

# Battery energy storage project plant in cameroon is in operation

Does Scatec have a solar power plant in Cameroon?

10 June 2024,Cameroon/Norway: Release by Scatec has entered into two new lease agreements with the national electricity company ENEO in Cameroon,expanding its existing solar and battery storage power plants in the country to 64.4 MWof solar and 38.2 MWh of batteries.

How much energy will release supply in Cameroon?

When the extensions of the projects are completed,Release's projects in totality will supply energy to about 200,000 householdsin Cameroon,according to ENEO estimates,generating an annual production of about 141.5 GWh of electricity.

Why is Eneo focusing on carbon-free energy in Cameroon?

This new step towards more reliable and carbon-free energy is part of Eneo's strategy,which is central to its continued efforts,under the auspices of the Government of Cameroon,to sustainably improve on the power available in Cameroon," according to Amine Homman Ludiye,CEO of ENEO Cameroon.

Norway-headquartered renewable energy company Scatec has brought online two solar-plus-storage hybrid resources projects in Cameroon, Africa. The two projects total 36MW of solar PV generation capacity paired ...

## **Battery energy storage project plant in cameroon is in operation**

Norwegian renewable power producer Scatec ASA (OSL:SCATC) on Friday inaugurated two solar solar farms totalling 36 MW collocated with 20 MW/19 MWh of battery energy storage in northern Cameroon.

Release completed the already existing solar plants in Maroua and Guider in Cameroon (35.8 MW solar and 19 MWh BESS) in September 2023, and is now adding 28.6 MW of solar and 19.2 MWh of battery storage.

The 11MW system at Kilathmoy, the Republic's first grid-scale battery energy storage system (BESS) project, and the 26MW Kelwin-2 system, both built by Norwegian power ...
