

When is release by Scatec launching solar plants in Cameroon?

22 September 2023, Cameroon: Today, Release by Scatec celebrates the inauguration of the solar plants in Cameroon. Release entered into a lease agreement with ENEO, an electricity company, in 2021 to deliver two solar hybrid and battery storage plants that have a combined capacity of 36MW solar and 20MW/19MWh of storage.

Where are Eneo solar & battery storage plants located in Cameroon?

Release entered into a lease agreement with ENEO, an electricity company, in 2021 to deliver two solar hybrid and battery storage plants that have a combined capacity of 36MW solar and 20MW/19MWh of storage. The plants are located in Maroua and Guider, in the Grand-North Cameroon.

Does Cameroon have a stable electricity supply?

There have been reports of significant improvements of electricity supply in the northern parts of Cameroon. Regions that fall under the Northern Interconnected Network were prone to experiencing power outages. Today we are proud to say that they have more stable power in the country courtesy to our rapidly deployable leasing solution.

What is the release by Scatec pre-assembled solar power & battery storage system?

The Release by Scatec pre-assembled solar power and battery storage system is a unique solution and the first of its kind to be deployed in Cameroon.

Are solar power plants generating electricity in Cameroon?

The solar power plants have been completed in phases generating electricity throughout 2022 and are now fully completed. There have been reports of significant improvements of electricity supply in the northern parts of Cameroon. Regions that fall under the Northern Interconnected Network were prone to experiencing power outages.

India Energy Storage Week (IESW) is a flagship international conference & exhibition organised by India Energy Storage Alliance (IESA), will be held from June 23 rd - 27 th, 2025.. It is ...

Georgios Papadimitriou, Galp's executive director in charge of renewables, new business, and innovation, commented: "As Galp keeps growing its renewable energy capacity aiming to transform its industrial base to ...
