

Will China Datang invest in New energy projects in Zambia?

According to the MoU, China Datang will invest in and construct 220MW of new energy projects with "high quality and efficiency." Zambia's President Hakainde Hichilema said the government is working towards attaining a power generation capacity of 10,000MW.

Will Zambia build a solar energy plant by 2026?

The solar energy plants are set to be constructed in Zambia by 2026 as the country looks to increase its electricity output. The MoU was signed in Beijing last week. Image Source: China Datang Corporation One of China's five large-scale power generation enterprises wants to build three solar energy projects in Zambia over the next few years.

Is Zambia achieving a power generation capacity of 10000 MW?

Zambia's President Hakainde Hichilema said the government is working towards attaining a power generation capacity of 10,000MW. The government is seeking urgent interventions to address power shortages that have adversely affected the country's economy this year.

Why is Zambia facing an energy crisis?

In August, ESI Africa reported that Zambia is facing an energy crisis caused by low water levels at its hydropower plants. A drought has reduced water levels in the Kafue River and Zambezi basins. As of 31 July, the national peak demand for electricity stood at 2,400MW. Available power generation was at 1,040MW, leaving a deficit of 1,360MW.

How will Zou & Hichilema help Zambia shift from a single energy structure?

Before the MoU was signed, Zou held talks with President Hichilema at China Datang's headquarters. This year marks the 60th anniversary of diplomatic relations between the two countries. President Hichilema said he hoped the collaboration can help Zambia shift from a single energy structure to a more diverse one.

How many solar projects will China Datang deliver by 2026?

China Datang Corporation Chairperson Zou Lei announced that the company will deliver three solar projects by 2026. According to the MoU, China Datang will invest in and construct 220MW of new energy projects with "high quality and efficiency."
