

China power construction jakarta energy storage project

Who built Indonesia's Upper Cisokan pumped storage power plant?

(Executive editor: Xie Yunxiao) The construction of the main project of Indonesia's Upper Cisokan Pumped Storage Power Plant, built by China Gezhouba Group Co., Ltd., a subsidiary of China Energy Engineering Group Co., Ltd. (Energy China), kicked off on July 5, marking the start of construction of the power project.

What is the first pumped storage power station in Indonesia?

On September 22, 2022, a ground-breaking ceremony was held for the first pumped-storage power station in Indonesia, Shangxi Sokai Pumped-storage Power Station. Relevant leaders of Energy China Gezhouba International Company and Three Gorges Construction Company attended the ground-breaking ceremony. Upper West Sokai Pumped Storage Power Station

Who will build the Indonesian Upper West Sokan pumped storage power station?

On July 7, 2022, China Energy China Gezhouba International Company and the Indonesian National Electric Power Company signed a contract for the construction of the Indonesian Upper West Sokan Pumped Storage Power Station.

What are the key projects undertaken by powerchina in Indonesia?

The Jatigede Dam Project is one of the key economic and trade cooperation projects between China and Indonesia. Cirata Photovoltaic Project is the first floating photovoltaic in Indonesia, and also the largest one in Southeast Asia. Key projects undertaken by POWERCHINA in Indonesia: 1. Jakarta-Bandung High-Speed Railway Project

Who congratulated energy China Gezhouba Group on the construction of pumped-storage power station?

The owner's representative, Ms. RATNASARI SJAMSUDDIN, congratulated Energy China Gezhouba Group on the construction of the first pumped-storage power station project in Indonesia, and hoped that both parties would cooperate sincerely in the implementation stage and jointly promote the completion of the project on schedule.

Where is the Upper Cisokan pumped storage power plant located?

The Upper Cisokan Pumped Storage Power Plant is located in the upper reaches of the Cisokan River in Java, Indonesia, 190 kilometers from the capital Jakarta. It is the first pumped storage power plant in Indonesia designed with four generating units, a capacity of 260 MW each and a total installed capacity of 1,040 MW.
