An automatic that endured. Citizen Automatic watches are a good example of the above case. At the heart of a Citizen automatic is a Miyota caliber 8200 automatic, mechanical movement, designed and put together also by Citizen. They created a balance wheel; arguably, the best size-to-weight proportions in its kind.

The 21 jewel 8200 automatic movement (21,600 bph) was first produced around 1975, and by the end of the 1970s it had become Citizen"s standard automatic, as the range of mechanical watches was massively ...
