

What is the ees Award & why is it important?

These include, first and foremost, the 24/7 energy supply from renewable sources, for which storage systems are indispensable. The storage industry's innovation prize, the ees AWARD, puts companies and their pioneering solutions in the spotlight.

Who won the 2022 International battery energy storage Award?

On May 10th, local time, CATL won the 2022 International Battery Energy Storage Award (ees AWARD) for its pioneering outdoor liquid-cooled battery system EnerOne at The Smarter E Europe in Munich, Germany. The ees AWARD is Europe's largest p

What is the 2023 ees Award?

The awards honor the innovative products and projects of future-oriented companies that play a key part in the new energy world. The submissions for the 2023 ees AWARD clearly demonstrate that energy storage is becoming increasingly popular among consumers.

Are storage systems a driver for the energy transition?

The finalists of the ees AWARD 2023 present storage systems as driver for the energy transition. The award will be presented on June 13, on the eve of the start of The Smarter E Europe in Munich. The path to a new energy age: Batteries and energy storage systems are indispensable for a reliable energy supply from renewable sources.

Which storage systems have been shortlisted for a prestigious industry prize?

This year, the panel of judges has nominated pioneering products and solutions, most of which are from the field of residential storage systems. But systems that extend the service life of large-scale storage systems have also been shortlisted for the renowned industry prize.

Are energy storage systems becoming more popular?

The submissions for the 2023 ees AWARD clearly demonstrate that energy storage is becoming increasingly popular among consumers. Many manufacturers dedicate themselves to residential storage systems, with new players joining established companies with new products in the market.

The awards honor the innovative products and projects of future-oriented companies that play a key part in the new energy world. Mobile storage devices, durability and second life. The submissions for the 2023 ees AWARD ...

Storing energy will become increasingly important for consumers - as is demonstrated by the finalists of the ees AWARD 2023. This year, the panel of judges has ...

At the renowned international ees exhibitions, the global energy storage industry presents groundbreaking

products and solutions for stationary and mobile electrical energy storage. Particularly innovative solutions have been presented with the ees AWARD at the annual Munich event since 2014.

Everything you need for a successful exhibition participation - from application options to organizing and planning your exhibition appearance.

An international panel of experts has judged the nominees for the ees AWARD 2022 and picked out pioneering solutions as worthy winners of the innovation prize for the storage industry - the ees AWARD. The winners were ...

The time for hybrid power plants has come. The combination of power generation from various renewable sources of energy, such as the sun, wind and hydropower, and smart storage technology bring a clear benefit: They allow the cost-efficient integration of electricity from renewable sources into the energy system.

Munich/Pforzheim, February 20, 2024 - The successful debut in 2023 laid the foundations for a promising future: The cooperation between ees Europe, the continent's largest and most international exhibition for batteries and energy ...

Celebrating Excellence in Energy Storage - The Third Edition of the Energy Storage Awards. Now in their third year, the Energy Storage Awards continue to recognise and celebrate excellence, innovation, and dedication in the ...

An international panel of experts has judged the nominees for the ees AWARD 2021 and picked out the most pioneering solutions and products as worthy winners of the innovation prize for the storage industry - the ees ...

Munich/Pforzheim, June 13, 2023 - This evening, the ees AWARD 2023 was presented on a big stage at the International Congress Center München (ICM): The winners were Elestor and its LDES hydrogen bromine flow battery, ...

AWARD. Global Events. News & Press. ... group developing technologies to revolutionize the energy and mobility announces the unveiling of the hydrogen-based energy storage system built with its proprietary technology in Agkistro, ...

As Europe's largest and most international exhibition for batteries and energy storage systems, ees Europe highlights technologies, trends, and market developments. ... The smarter E Award 2025: Energy Transition Pioneers Shortlisted. ... Battery ...

3.3.3 Aggregating EES systems and distributed generation (Virtual Power Plant) 50 3.3.4 "Battery SCADA" - aggregation of many dispersed batteries 50 Section 4 Forecast of EES market potential by 2030 53

Your international platform: With 110,000+ (expected) industry professionals and 3,000+ exhibitors at The smarter E Europe 2025. Showcasing innovation: The innovative power of the industry is on full display, at every ...

The organizers of ees Europe, working together with the experts from the ees Europe Conference committee and the prestigious conference partners, put together a highly topical two-day program focusing on the most important market and ...

In addition, Solar Promotion GmbH is in charge of organizing the Geb&#228;ude.Energie.Technik (GETEC) exhibition, one of the leading exhibitions for energy-efficient planning, building and modernizing. Solar Promotion GmbH ...

o Energy Storage: Experts are calling this the decade of energy storage, which is a cornerstone of our climate-neutral 24/7 energy supply. For this reason, the Energy Storage category recognizes exceptional innovations in the storage industry - from energy storage technology and components to battery production technologies.

The focus of this year's ees Europe was a secure and environmentally friendly energy supply in Europe centered around renewable energy, battery storage solutions and green hydrogen. Plus, the winners of the ...

On May 10th, local time, CATL won the 2022 International Battery Energy Storage Award (ees AWARD) for its pioneering outdoor liquid-cooled battery system EnerOne at The Smarter E Europe in Munich, Germany. The ...

bietet dieser AWARD Solarunternehmen eine einzigartige Plattform, um international breite Anerkennung zu finden und sich vom Wettbewerb abzuheben. Mehr erfahren . The smarter E AWARD - Kategorie Energy Storage. Der 2014 eingef&#252;hrte The smarter E AWARD in der Kategorie Energy Storage (vorher ees AWARD) ist den ...

Sungrow, the global leading PV inverter and energy storage system supplier, won ees AWARD 2023 with its liquid cooled energy storage system PowerStack, which caters ...

An international panel of experts has judged the nominees for the ees AWARD 2022 and picked out pioneering solutions as worthy winners of the innovation prize for the storage industry - the ees AWARD.

This is where ees Europe - the continent's largest and most international exhibition for batteries and energy storage systems plays an important role. As part of The smarter E Europe, the continent's largest alliance of exhibitions for the energy industry, ees Europe offers science and industry a space to share ideas.

LONGi Solar Technology Co., Ltd. (China): Impressive Nominal Power and Efficiency with Hi-MO5; ees AWARD. SAX Power GmbH (Germany): Digital AC Battery for Energy Storage and E-Mobility; Commeo

GmbH (Germany): ...

For the first time ever, The smarter E AWARD was presented in five award categories: Photovoltaics, Energy Storage, E-Mobility, Smart Integrated Energy and Outstanding Projects. Anyone wanting to check out the ...

After a successful start in 2023, visitors to ees Europe and Power2Drive Europe can look forward to the InterBattery Europe Showcase exhibition area for the third year in a row, where around 200 exhibiting companies are expected - including renowned industry giants such as Samsung SDI, LG Energy Solution and SK On. Last year, 79 companies, 68 of them from ...

Storing energy will become increasingly important for consumers - as is demonstrated by the finalists of the ees AWARD 2023. This year, the panel of judges has nominated pioneering products and solutions, most of ...

In 2025, the new highlight of ees Europe, Europe's largest and most international exhibition for batteries and energy storage systems, will be the ees Innovation Hub. Press Release. Bavaria Becomes the Center of Germany's Hydrogen Economy ... Battery Research Meets International Storage Industry. February 25, 2025 ... the ees AWARD 2023 was ...

AWARD. Global Events. News & Press. ... Each year, ees Europe, Europe's largest and most international exhibition for batteries and energy storage systems, provides a networking opportunity for the industry's key players, ...

Join us for the latest trends and innovations in the battery and energy storage industry at the ees Forum, operated by IBESA. Wednesday, June 19, 2024. 10:30 AM - 1:30 ...
