

What will be included in the CCS Forum?

Inclusion in the forum will be at the discretion of the programming lead, who will assess content and session formats based on their suitability for our audience and with a clear directive to further the scaling up of CCS in the region. **TECHNOLOGY SPEED NETWORKING EVENT** We plan to host a Technology Speed Networking event on 7 May, 4-6 pm.

Where is CCS Forum 2025?

Build your connections, knowledge and CCS resource toolkit with us. This year's Forum will feature: Date: 6 - 8 May 2025 Location: Grand Hyatt Kuala Lumpur, Malaysia Accommodation: We have negotiated preferential rates at the Grand Hyatt.

What happened at the CCUs Forum 2021?

The first high-level CCUS Forum took place in October 2021 and gathered nearly 400 participants revealing a growing interest in CCS and CCU and the need for ongoing stakeholder dialogue. WG 3 was about industrial partnership and worked towards better industry involvement in technology deployment.

When is the CCUs Forum 2023?

The third edition of the CCUS Forum took place in Aalborg, Denmark on 27-28 November 2023 and was co-hosted by the Danish Ministry of Climate, Energy and Utilities.

The interventions at the Forum of Commissioner for Energy, Kadri Simson, the Danish Minister of Climate, Energy and Utilities, Lars Aagaard, the French Minister for Energy Transition, Agnès Pannier-Runacher and the ...

Carbon Capture and Storage Conference - CCS 2023! 6 - 7 December 2023, Quality Hotel Expo, Fornebu (outside Oslo) Norwegian Petroleum Society (NPF) invite you to join us for a two-day, lunch-to-lunch, deep dive seminar into both ...

Organised by the Global CCS Institute the event brings together policy leaders, NGOs, industry experts, academics, those in the financial sector and the general public to meet and discuss the state of carbon capture, ...

Indonesia is positioning itself as a leader in Carbon Capture and Storage (CCS) technology, with strong regulatory support and growing industry collaboration, an energy ...

The Long Duration Energy Storage Council has found that when the electricity grid hits 60-70% renewables, LDES becomes mandatory for an efficient grid to manage intermittent generation. LDES will reduce curtailment, ...

Reaching climate targets while ensuring energy security and a just transition to a cleaner, low-carbon future needs leadership and action on CCS now. Join us at this year's "APAC Forum" for 2.5 days of engaging ...

In 2024, carbon capture and storage (CCS) saw significant progress with increased policy support, streamlined permitting, and greater industry interest. Recognised for its role in achieving a net-zero economy, ...

The nascent carbon capture and storage (CCS) industry is hampered by "high costs, regulatory disparities and insufficient coordination" between EU states, EU energy ...

The nation's energy storage capacity further expanded in the first quarter of 2024 amid efforts to advance its green energy transition, with installed new-type energy storage capacity reaching 35. ...

ALJ Group is delighted to extend a warm invitation to the 4 th Global Hydrogen & CCS Forum, a pioneering event bringing together leaders, innovators, policymakers, and experts in the fields of hydrogen and carbon ...

Application of CCS and CCUS in Oil and Gas Field. Although oil and gas production has incompatibility with green and low-carbon development, synergy can be accomplished via technical advancement and scientific ...

"The government of Indonesia wants to move very quickly on this carbon capture and storage," Mr. Pandjaitan stated at a CCS forum in Jakarta on Wednesday, July 31, 2024. ...

Heavy reliance on CCS could result in the EU badly missing climate targets, it warned. Storage capacity. Long-range CO2 transport is "needed to make export hubs viable" ...

The 2nd IICCS Forum 2024 has garnered global attention with its main theme "Net Zero & Beyond: Unlocking Regional Potential for Absolute Carbon Management with CCS Hub ...

Welcome To 4th European Carbon Capture, Utilization and Storage 2025. The 4th Global Carbon Capture & Storage 2025 is Europe's premier forum dedicated to ...

International and Indonesia CCS Forum 2023 as a Medium of Cooperation between CCS Operators, Industries, and Related Stakeholders for the Acceleration of Carbon Capture and Storage's Implementation in ...

This is where carbon capture and storage (CCS) comes in. ASEAN has also acknowledged the crucial role of CCS and has embedded CCS policies into its regional commitment through the 41st ASEAN Ministers on ...

The 4th European Carbon Capture, Utilization & Storage (CCUS) 2025 conference highlights advanced technologies, regulatory insights, and investment prospects driving ...

This year's forum will feature panel discussions and presentations on a range of CCS-related topics, including CCS financing, CCS national strategies, policy developments, and more.

CCS into a true energy option, to be deployed in large scale. It is not enough to only see CCS in long-term energy scenarios as a solution that happens some time in a distant ...

The Offshore Wind and Carbon Capture and Storage (CCS) Colocation Forum ("the Forum"), set up to provide strategic coordination of colocation research and activity on the nation's seabed, has commissioned ...

The role of carbon capture and storage (CCS) in the energy transition is often scrutinized for enabling continued fossil fuel use, but in many cases CCS can help decarbonize industrial sectors. ... Clustered large ...

Horisont Energi and partners are pioneering CCS value chains, enabling large-scale CO<sub>2</sub> storage and a new emerging CCS industry in Europe. The Polaris reservoir is currently undergoing subsurface assessment and studies. The ...

Under the U.S.-India Strategic Economic Dialogue, the U.S. Department of Energy's (DOE's) Office of Fossil Energy and Carbon Management (FECM) co-chairs the Power & Energy Efficiency Pillar, under ...

Abstract. Carbon capture and storage (CCS) is broadly recognised as having the potential to play a key role in meeting climate change targets, delivering low carbon heat and power, decarbonising industry and, more recently, its ability ...

Declaring the new era of CCS. During the late November forum, five major European countries (Denmark, Germany, France, Netherlands and Sweden) signed the Aalborg ...

Activity around CCS hubs in Asia has been bustling, which speaks to the region's unique needs along with its supportive landscapes and geology. Menu. Energy Debate. ...

It brings together representatives from the EU institutions, EU and non-EU countries, NGOs, business leaders and academia to facilitate the deployment of carbon ...

Carbon-capture and storage (CCS) technology has emerged as a robust and innovative tool to reduce carbon emissions and make progress towards net zero goals. The CCS market is experiencing rapid growth, ...

According to the World Economic Forum, if the cement industry were a country it would be the world's third or fourth largest emitter of carbon dioxide (CO<sub>2</sub>) emissions, ...

The Industrial Carbon Management Strategy (ICMS) provides the needed framework for CCUS; it is now time to deliver the tools stemming from it, starting with financial incentives. The European CCS Bank, a competitive ...

Carbon capture and storage (CCS) involves the trapping of man-made CO<sub>2</sub> underground to avoid its release into the atmosphere. Because of the scale with which it could be applied, CCS is ...
