

Energy storage exhibition in the second half of the year

When is energy storage International Conference & Expo 2025?

The 13th Energy Storage International Conference and Expo is scheduled for April 10-12, 2025, and will be held at Beijing New International Exhibition Center Phase II.

When is the energy storage International Conference & Expo (ESIE)?

The Energy Storage International Conference and Expo (ESIE) will take place on 3 days from Thursday, 10. April to Saturday, 12. April 2025 in Beijing. 10. - 13. April 2024 07. - 09. April 2023

Why should you attend Eesa China International Energy Storage Expo?

At EESA China International Energy Storage Expo (EESA EXPO), Asia's premier energy storage exhibition, the road ahead is paved with countless opportunities. From connecting with 150,000+ of your peers to doing business with 600+ exhibitors, it's an exhibition that yields benefits throughout the entire year.

Why should you attend energy storage Expo?

From connecting with 150,000+ of your peers to doing business with 600+ exhibitors, it's an exhibition that yields benefits throughout the entire year. Preview the latest energy storage products and solutions, tune in to the latest industry trends and expand global business networks.

How many exhibition halls are there at the Energy Expo?

The expo will have 7 exhibition halls, inviting participation from power companies, power generation groups, grid companies, transmission and distribution operators, grid system operators and integrators, new energy manufacturers and investment institutions.

Why should you attend Eesa Expo 2025?

600 exhibitors presented a wide range of energy storage products and solutions at EESA EXPO 2025 ---- make sure you are part of it. Why Exhibit? EESA EXPO 2025 attracted 150,000 visitors seeking to gain insights into industry trends, source new products and do business with peers from across the energy storage industry.

Thematically, solar energy takes up the largest space at the exhibition centre in seven halls alone, ahead of wind energy with one and a half halls and the show for energy storage units, which is directly linked to solar ...

Also, the pace of power plant retirements slowed in the first half of this year to 5.1 GW, down from 9.2 GW in the same period last year, the Energy Information Administration said Monday.

Boston, MA - October 3, 2024 Today, EnergySage released its 19th EnergySage Intel Solar & Storage Marketplace Report. This semiannual report analyzes millions of transaction-level data ...

Energy storage exhibition in the second half of the year

On April 22nd, the CESC2024 China International Energy Storage Conference, hosted by the Jiangsu Energy Storage Industry Association, opened at the Nanjing International Expo Center. This conference, themed ...
