

Can Italy make battery storage projects commercially attractive?

"Italy has a clear need for storage, and the enabling market and regulatory mechanisms are being put in place to make battery storage projects commercially attractive." CIP's Flagship Fund CI V, completed in March 2025, exceeded its EUR12bn (\$12.9bn) target.

What is the energy storage industry?

Energy Storage forms part of the Energy industry, which is the 16th most popular industry and market group. If you're interested in the Energy market, also check out the top Energy & Cleantech, Renewable Energy, Recycling, Oil & Gas or Energy Efficiency companies. Long Duration Energy Storage at utility scale

Is MACSE a business case for grid-scale storage in Italy?

The CM and a new energy storage-only auction scheme called MACSE are set to form the bedrock of the business case for grid-scale storage in Italy, something that consultancy Timera Energy's director for power market services Steven Coppack said made it unique in Europe (Premium access).

What are Italy's energy goals?

Italy's ambitious energy goals, outlined in the National Integrated Energy and Climate Plan (PNIEC), mark a transformative shift toward renewable energy. By 2030, the country is targeting 28GW of wind power and nearly 80GW of solar capacity, making energy storage essential for ensuring grid stability and maximizing renewable integration.

Why is CIP launching large-scale battery projects in Italy?

The development of large-scale battery projects aligns with CIP's growing focus on energy storage. With Italy's supportive regulatory environment, the partnership aims to leverage CIP's expertise to advance its storage infrastructure projects. The move also supports Italy's aim to meet the nation's 2030 renewable energy targets.

How much battery storage does Enel have in Sardinia?

Enel alone won over 1 GW of battery storage projects through this, 93% of the total storage capacity awarded, which it has started building in Q2 2023 as mentioned previously. Of the total, 500MW is in Sardinia.

In December 2023, the European Union approved Italy's EUR17.7 billion energy storage plan to assist the country in building more than 9GW/71GWh of energy storage facilities. The plan, which will run until the end ...

Research firm LCP Delta recently forecast that after annual grid-scale deployments of just 20MW in the last few years, Italy would deploy 800-900MW in 2023/2024, second in scale only to the UK. In this piece, we ...

BESS technology has won the bulk of new resource contracts in the capacity market (CM) auction for delivery

in 2027 in Italy. The auction took place last week (26/27 ...

In 2020-2021, in response to the COVID 19 pandemic, Italy has committed at least USD 54.97 billion to supporting different energy types through new or amended policies, according to official government sources and other ...

"Leveraging our UK expertise and AG's deep local regulatory knowledge, we are building a portfolio of strategically distributed sites across key Italian zones. Partnering with ...

An inter-office energy storage project in collaboration with the Department of Energy's Vehicle Technologies Office, Building Technologies Office, and Solar Energy Technologies Office to ...

The auction, which was for delivery of projects to begin operation in 2024, has been credited with kickstarting the Italian market for grid-scale energy storage s biggest winner was utility Enel, which won more than 90% ...

With over 50GWh+ of storage capacity being required by 2030, the Italian energy storage market is a highly attractive market for developers and investors. Please join us for an ...

The energy storage market in Italy has unique characteristics that mean more risk-averse investment funds will be able to enter, but upcoming auctions could be very competitive, ...

Energy Dome's CO2 Battery. This image is a rendering of how the company's 200MWh project in Sardinia, Italy, will look. Image: Energy Dome. US utility company Alliant Energy has moved forward with a long-duration energy ...

The development of Battery Energy Storage Systems (hereinafter "BESS") in Italy has been limited by the fact that the spread of renewable sources is not such as to produce ...

The CM and a new energy storage-only auction scheme called MACSE are set to form the bedrock of the business case for grid-scale storage in Italy, something that ...

NHOA Energy is the energy storage arm of Italy-headquartered NHOA, which is also active in the electric vehicle (EV) charging infrastructure space through separate business units, and is currently listed on the Euronext ...

Energy storage systems emerge as key elements in optimizing sustainable resource use, ensuring a steady flow of energy even when primary sources, such as sun or ...

Having led a series of large BESS projects in the UK for Clearstone Energy, Digby Willoughby has relocated to Italy to focus on building the new business and Milan office. He is ...

In 2023, residential energy storage continued to dominate Italy's energy storage landscape, representing the largest application scenario for newly added installations. Residential PV systems retained their prominence, ...

Octopus Energy charges up Italy's battery storage sector with new joint venture. ... Octopus Energy Generation is driving the renewable energy agenda and building green power for the future. This means reshaping the ...

In the meantime there will be a strong investor focus on Italian storage this year in the lead up to the first auction. Join our upcoming webinar on the Italian BESS investment case. Topic: "A new model" - how the MACSE ...

Cubico is the latest in a long list of developer/IPP's announcing 1GW-plus BESS pipelines in Italy, including Matrix Renewables, Octopus Energy, Volt ESG, SUSI Partners, ...

The firm has been an early mover in Italy's grid-scale energy storage market with over 1GW of BESS under construction after big capacity market wins in 2022. In concurrent news, developer Emeren has continued its ...

Three projects in Italy's Lombardia, Piemonte, and Puglia regions. 14 February 2024, ITALY / UK / SINGAPORE - ACL Energy, a Milan-based battery energy storage developer, today announces a joint venture partnership ...
