Product & Applications Induction Cap Sealing Systems - Cap Sealing Machines. The induction sealing

technology is a sector in full expansion where ME.RO has emerged as a leading company. In a growing market where the producers are ...

The Prism Induction Cap Sealing Machine is a specialized device that utilizes induction heating technology to create a secure and tamper-evident seal between caps and containers. By generating an alternating magnetic field, the machine heats the foil liner on the cap, causing it to melt and adhere to the container rim.
