

The user, a candy mold manufacturing factory in the Netherlands, has made sustainability a core focus of its operations. To reduce energy costs and become more energy ...

Unique and productized energy storage systems and solutions for customer-specific needs, from design to commissioning. ... Portability offers completely new opportunities for the utilization of energy storage systems. ...

Skeleton Technologies takes another significant step forward in its growth by opening a new research and product development (R& D) unit at the LUT University campus in ...

The new 30 MW energy storage plant - with a storage capacity of 30 MWh - is located in Yllikk&#228;l&#228;, close to the city of Lappeenranta in Southeast Finland. Known as Yllikk&#228;l&#228;, ...

Fortum, a Finnish majority state-owned energy company, is shaking up the value chain for industrial and electric vehicle batteries with a low-carbon dioxide recycling solution capable of utilising up to 80 per cent of batteries, thus ...

Finland has set targets to reduce greenhouse gas emissions by at least 60 % by 2030 compared to 1990 levels and for the renewable energy share of final energy ...

action priorities that stand out in Finland's energy horizon, according to the 2024 World Energy Issues Monitor survey results. Risk to Peace, Affordability and Acceptability are ...

ib vogt, a leading utility-scale renewables development platform, has finalized the sale of project rights for a 50MW/50MWh Battery Energy Storage System (BESS) in Finland to ...

The plant will produce cathode active material, a key component in lithium-ion batteries used in electric vehicles and for energy storage, said Easpring Finland New ...

W&#228;rtsil&#228;; Energy Storage. Leading global energy storage solutions provider: optimising energy for a smarter, safer, more reliable grid. Combining 15+ years of industry expertise with a global ...

Construction will commence on a major battery-storage project in Finland, which is set to be one of the largest in the Nordic region. The project aims to address challenges associated with ...

Finnish company Polar Night Energy is rapidly advancing the development of an industrial-scale Sand Battery. This sustainable energy storage solution is being constructed in ...

Set to go online in 2026, the facility will enhance grid stability, energy resilience and accelerate green electrification. The project marks Ingrid Capacity's first two-hour system and its debut in Finland. Once operational, ...

The new 30 MW energy storage plant - with a storage capacity of 30 MWh - is located in Yllikk&#228;l&#228;, close to the city of Lappeenranta in Southeast Finland. Known as Yllikk&#228;l&#228; Power Reserve One, this first roll-out of lithium ...

Swedish flexible assets developer and optimizer Ingrid Capacity has joined hands with SEB Nordic Energy's portfolio company Locus Energy to develop what is claimed to be Finland's largest and one of the Nordics' largest ...

The new Hitachi Energy Park will feature a top-notch transformer factory and modern office and testing facilities, which will double the company's production and testing ...

The facility, developed by Easpring Finland New Materials Oy, will supply materials for lithium-ion batteries used in electric vehicles and energy storage. The project is a ...

Finnish company Polar Night Energy is rapidly advancing the development of an industrial-scale Sand Battery. This sustainable energy storage solution is being constructed in Pornainen,...

Set to go online in 2026, the facility will enhance grid stability, energy resilience and accelerate green electrification. The project marks Ingrid Capacity's first two-hour system ...

Ingrid is developing the battery energy storage system (BESS) project in partnership with investor SEB Nordic Energy portfolio company Locus Energy for a ...

Finnish boatbuilder balances history, innovation in fiberglass composites design. CW Top Shops honoree Sargo Oy shares its successes in upgrading operations from hand layup to infusion, employing low-waste ...

The Ministry of Economic Affairs and Employment (MEAE) has granted EUR 19.5 million in aid to Ilmatar Energy Oy for the implementation of a renewable energy hybrid park. ...
