

Does Georgia Power have a new battery energy storage system?

ATLANTA, Aug. 29, 2024 /PRNewswire/-- Georgia Power has identified locations for 500 MW of new battery energy storage systems (BESS) authorized by the Georgia Public Service Commission (PSC) earlier this year as part of the company's 2023 Integrated Resource Plan (IRP) Update.

How many battery energy storage sites will Georgia Power have in 2026?

Georgia Power has applied for certification of four battery energy storage sites totaling 500 MW expected to come online in 2026. In a continued effort to limit its use of fossil fuels to mitigate peaks, Georgia Power Company is adding a whole mess of new BESS.

Will Georgia Power build a battery system outside Columbus?

Georgia Power said it is conducting final testing on its first-ever BESS, a 65-megawatt system outside Columbus. As part of the plans revealed last Friday, Georgia Power plans to build: A 265-megawatt battery system in Cherokee County near Ball Ground.

What is the Georgia Power Company Integrated Resource Plan Update 2023?

Earlier this month, Georgia Power Company submitted its 2023 Integrated Resource Plan Update (2023 IRP Update) to the Georgia Public Service Commission, which includes an Application for Certification for four battery energy storage systems totaling 500 MW.

Is Georgia Power completing a Bess project?

In addition to the 500 MW BESS projects from the 2023 IRP Update, Georgia Power is nearing completion on the 65 MW Mossy Branch Battery Facility located in Talbot County, Georgia. Mossy Branch was approved in the 2019 IRP and will be Georgia Power's first BESS resource.

Where was Georgia Power's first Bess installed?

In February, Georgia Power installed its first BESS, the Mossy Branch Energy Facility, a 65 MW BESS on 2.5 acres of rural countryside in Talbot County, north of Columbus.
