

How do I Close a UST tank in Georgia?

TANK CLOSURES The Georgia UST Management Program recommends closing tanks and other UST components by removing them from the ground. Click here for the guidance document and the template for properly completed tank closures. **CORRECTIVE ACTION /GUST TRUST FUND**

What is the underground storage tank management program?

The Underground Storage Tank (UST) Management Program is responsible for regulating emergency generators and ensuring operational compliance and cleanup of leaks from registered UST systems. Please contact the ATR Helpline at 404-362-2590 or if you have any questions.

What facilities are exempt from Georgia Ust rules & regulations?

Several systems are exempt from the Georgia UST Rules and Regulations. The most common exemptions are heating oils and tanks that are used for operating heating equipment, boilers and furnaces, and above ground storage tanks (ASTs). Common facilities of emergency generators are hospitals and data communication centers.

What is FSTP & GEFA's fuel storage tank program?

When this happens, FSTP works with state agencies to assess the degree of contamination and remediates the site. GEFA's Fuel Storage Tank Program installs, upgrades, and removes USTs and ASTs and remediates state facilities.

Can a corrective action be conducted using funds from Georgia underground storage tank trust fund?

If a corrective action is to be conducted using funds from the Georgia Underground Storage Tank Trust Fund, the corrective action will not extend substantially beyond the target objectives of Rule 391-3-15-.09 (4).
