

# How to apply for energy storage electric vehicle subsidies

What is a subsidy for electric vehicles?

A subsidy for electric vehicles is a financial incentive offered by the government to encourage the purchase of electric vehicles. A subsidy for electric vehicles reduces the actual cost of the vehicle. As a result, the government can cash back the subsidy amount to the direct purchaser of the vehicle. 1 How to Apply for Electric Vehicle Subsidy?

What are EV subsidies?

EV subsidies are financial incentives offered by the government to make electric vehicles more affordable for consumers. These subsidies can be significant, and they can play a major role in helping people make the switch to electric vehicles.

How do I apply for an electric vehicle subsidy?

To apply for an electric vehicle subsidy, you will need to gather the following documents and information: You may also need to submit additional documents depending on the specific subsidy scheme that you are applying for.

What is EV subsidy scheme in India?

The FAME scheme provides subsidies for both electric vehicles and electric vehicle infrastructure. In addition to the FAME scheme, many state governments in India also offer their own EV subsidy schemes. These state-level subsidies can vary in terms of eligibility criteria and amount of subsidy offered.

How much is electric vehicle subsidy in India?

It is, for example, INR 10,000 per kWh for an electric two-wheeler with a battery capacity of up to 4 kWh, and INR 15,000 for an electric car with a battery capacity of up to 30 kWh. Please check the Electric Vehicle (EV) Policy How to Apply for Electric Vehicle Subsidy?

How many credits can a EV receive?

Each electric vehicle (EV) can receive between 1 and 3.4 credits depending on its characteristics. Each original equipment manufacturer (OEM) can achieve the target in several ways, mainly by selling battery electric vehicles (BEVs), plug-in hybrid electric vehicles (PHEVs), and fuel cell electric vehicles (FCEVs) in various proportions, and by trading credits with other manufacturers.
