

# How to install the universal pendant for electric vehicle power storage bag

Do you need an EV cable bag?

An EV cable bag will protect your charging cable and keep it tidy, preventing damage, theft, and ensuring it's neatly stowed when not in use. Many EV cable charging bags are available -- but there are differences in quality and functionality you should look out for. Here's your guide to choosing an EV cable bag. Why

How do I choose the best EV charger cable bag?

So your EV charger cable bag should be large enough to accommodate your charger, without being cumbersome or having too much excess space. Invest in a cable bag that's designed to hold your specific cable length. Check the depth of the bag against the widest part of your cable to ensure a good fit.

How long should an EV charger cable bag be?

Will keep your cable free from dust and corrosion. Most charging cables are either 5 metres or 10 metres in length. So your EV charger cable bag should be large enough to accommodate your charger, without being cumbersome or having too much excess space. Invest in a cable bag that's designed to hold your specific cable length.

How do you store EV charger cables?

The most common and convenient way to store EV charger cables is by using cable holders, hooks or a cable tidy. These holders are designed specifically to keep the cable off the ground, preventing it from becoming tangled or damaged.

How do I protect my EV charger?

The last thing you want to do is have the cable loosely scattered across your garage floor, and you want to keep that connector as well protected as possible. One of the easiest and most affordable solutions is to purchase an EV charger holster dock.

How do I Keep my EV charger cable coiled?

Velcro straps or cable ties are a simple yet effective way to keep your EV charger cable neatly folded or coiled. They are easy to use, adjustable, and can be attached directly to the cable or charger for convenient access. This solution is ideal for quick and easy cable management without permanent installations.
