Latest news on us energy storage companies

What will the US energy storage industry look like in 2025?

As for the future of the US energy storage industry, on February 24, the US Energy Information Agency noted that the utility-scale battery storage sector added a record 10.3 gigawatts in capacity last year. They expect 2025 to blow past that mark by a wide margin, at 18.2 gigawatts.

Which battery energy storage projects have been successful in Western Australia?

2.6GWhof utility-scale battery energy storage projects have been successful in Western Australia's first Capacity Investment Scheme tender. Energy storage developer Energy Vault is set to fully acquire the 125MW/1GWh Stoney Creek battery energy storage system (BESS) in New South Wales, Australia, from Enervest Group.

Which energy storage companies are launching a 'water battery'?

The oil and gas legacy firm Hunt Energy, for example, has tasked its Hunt Energy Network branch with introducing Quidnet Energy's new long duration "water battery" to the Texas grid. Another energy storage startup to watch is the up-and-coming US renewable energy firm Sunraycer Renewables.

What's going on at the Energy Storage Summit Australia 2025?

NSW's BESS pipeline, PHES in Tasmania and the 'home of utility-scale storage' were discussed at the Energy Storage Summit Australia 2025. ESN Premium discusses the ongoing adaptation of EV battery lines to stationary storage applications with Jaehong Park, CEO of LG ES Vertech.

Who owns a 150MW battery energy storage system?

Developer Peregrine Energy Solutions has secured US\$168 million for a 150MW battery energy storage system (BESS) currently under construction. This site is operated by a business or businesses owned by Informa PLCand all copyright resides with them. Informa PLC's registered office is 5 Howick Place,London SW1P 1WG.

What is an example of an energy storage facility?

One example is the Edgewater energy storage facility in Sheboygan, Wisconsin being developed by Midwest utility Alliant Energy. The 99 MW battery will be located adjacent to Alliance's 350 MW Edgewater coal-fired power station and will gain bonus "Energy Community" tax credits.
