

What is Longi cell R&D center?

Based on its original innovative industrialized cell technology, the LONGi Cell R&D Center continually provides upgrades to PV industry technology. Indeed, in January 2019 the company achieved 24.06% front conversion efficiency for a monocrystalline bifacial PERC solar cell, a record which still stands.

What does Longi do?

With 15 manufacturing bases and more than 30 branches around the world, LONGi produces monocrystalline silicon wafers and modules, delivering solutions for distributed and ground mount power station systems, promoting the development of the global PV industry and driving energy transformation.

How much did Longi invest in R&D?

Between 2012 and 2020, LONGi invested close to RMB 8 billion (\$1.2 billion) in R&D and accumulated a total of 1,001 authorized patents, enabling the company to maintain its position as a leader in PV industry innovation. About LONGi LONGi, founded in 2000, is a world leading solar technology organization.

Who is Longi Longi?

About LONGi LONGi, founded in 2000, is a world leading solar technology organization. The company has had a long-term, unswerving commitment to monocrystalline technology, convinced, rightly, that its general adoption would bring about significant technological change for the whole PV industry.

Why did Longi join the EV100 and EP100 initiatives?

In 2020, LONGi became the first Chinese solar energy company to join the RE100, EV100 and EP100 initiatives, set up to promote zero-carbon solar and sustainable development.

How will Longi contribute to China's 'two carbon' goals?

Focusing on the development, mass production and incubation of advanced technologies and products, LONGi will continue to stay connected to cutting-edge technologies and lead technological change, in order to help achieve China's 'two carbon' goals of reducing carbon dioxide emissions before 2030 and being carbon neutral before 2060."

The ongoing patent disputes between JinkoSolar and LONGi Green Energy are intensifying across multiple global locations, primarily involving TOPCon battery technology ...

Jinko Tier 1 Longi Trina Ja Solar Panel 570W 575W 580W 585W Tiger Neo N-Type 72h14- (V) 565-585 Watt Mono-Facial Module Solar Panel Price Original Factory ... House Ess Backup Power Battery 15kwh 51.2V 280ah 10kwh 48V ...

LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy transition. By offering high-quality, reliable products and

systems, we ...

By optimizing the actual load demand, integrating power supply and grid resources, taking advanced technologies such as flexible energy storage and innovation of ...

Integrated businesses are focused on TOPCon, while the new capacity for N-type is centralized on HJT projects. The market arrangement for the TOPCon technology is primarily seen from integrated businesses such as ...

Easy to install, it integrates smoothly with various solar systems for efficient energy storage. Included: Battery to inverter & Battery to battery cables Features: Lithium ferro phosphate cell technology Can be wall-mounted indoors or ...

High quality Longi Topcon N Type Bifacial Solar Panel 108 Cell 585W 570W 590W for EU Warehouse from China, China's leading Solar Panel product market, With strict quality control ...

,??"?"?"?, ...

Notably, Longi's manufacturing technique reduces the reliance on rare indium and precious silver, which are critical components in other high-efficiency solar cells such as PERC ...

Hi-MO N maintains LONGi's optimal 182mm cell and 72-cell module size and adopts LONGi's proprietary high performance cell (HPC) technique based on n-type TOPCon.

February 27th, 2025 | Jiangsu, China -On February 27,2025, Li Zhenguo, founder and president of LONGi Green Energy Technology Co., Ltd. (LONGi), attended the China Photovoltaic and Energy Storage ...

On May 17, the first piece of high-efficiency TOPCon 210R rectangular cell module was successfully rolled out of the Xuzhou base, marking that the 210R module has ...

Longi Green Energy Technology Co Ltd, a key player in the photovoltaic sector, announced a groundbreaking achievement in high-efficiency PV cell technology, setting a record conversion efficiency ...

Shanghai,China- June 14 th - On June 14th, at the highly anticipated 2024 SNEC Expo in Shanghai, LONGi Green Energy Technology Co., Ltd. (hereinafter referred to as "LONGi ") announced a major breakthrough in ...

Longi said today that its HPBC cell efficiency has exceeded 26.6%, which is an epoch-making high-efficiency battery technology. Lu Yuan revealed that the efficiencyof mass ...

Testing at the Institute for Solar Energy Research (ISFH) in Hamelin, Germany, has confirmed that the

conversion efficiency of N-type monocrystalline bifacial TOPCon cells developed at LONGi's Cell R& D Center ...

Achieve integrated power source-grid-load-storage at district (provincial), city (county), and residential area levels. Leverage the adjustability of the load-side assets. Achieve flexible growth at the local level. Solar-plus ...

Xi'an, December 18, 2023-The world-leading solar technology company, LONGi Green Energy Technology Co., Ltd. (hereafter as "LONGi"), announced today that it has set a new world record of 27.09% for the efficiency of crystalline silicon ...

Returning for its 12th edition, Solar and Storage Finance USA Summit remains the annual event where decision-makers at the forefront of solar and storage projects across the United States and ...

Combined with HPBC 2.0, the Hi-MO X10 series reportedly delivers up to 10% higher energy yield than competing TOPCon modules. Longi's internal calculations estimate ...

Energy Storage; Battery/Electric Vehicle; Customized; Price Trend. Solar Price; Lithium Battery; Interviews; ... LONGi. By the end of 2023, LONGi's own wafer capacity ...

According to the news of Aiko on July 16, the empirical data of Ningxia Electric Power Design Institute shows that the power generation per watt of Aiko ABC module is ...

As the renewable energy sector rapidly evolves, battery energy storage systems (BESS) are emerging as a critical pillar for decarbonization. However, with capital constraints and rising market ...

For example, in the high-temperature, high-humidity environment of Hainan, China, Longi's Hi-MO 9 module delivers a 1.89% per-watt energy yield advantage over conventional TOPCon modules, while in arid Riyadh, Saudi ...

October 30th, 2024 - On October 30th, 2024, LONGi Green Energy Technology Co., Ltd. (hereinafter referred to as "LONGi") released its 2024 Q3 financial report. The ...

The announcement shows that this project will introduce the high-efficiency N-type TOPCon battery technology developed by the company, and the conversion efficiency of mass-produced batteries will reach more than 25%.

High quality Longi Topcon N Type 585W 580W 590W 560W 565W 570W 575W Solar Panel For EU Warehouse from China, China's leading Solar Panel product market, With strict quality ...

Sunpal Container Bess 380V 250kwh 500kwh Solar Battery Energy Storage System. US\$35,600.00-42,720.00

/ Piece. 2 Pieces (MOQ) ... Longi Lr5-72hph-555m Solar Plates 540 ...

1. Recent innovations have propelled LONGi into a competitive position in the global energy storage market,
2. Their integration of solar technology with battery solutions ...

Longi plans to achieve a total solar cell production capacity of 110 GW by the end of 2023, with 30 GW dedicated to TOPCon technology and 80 GW for BC technology.

Since 2022, LONGi has used "Back Contact 1.0" technology in products and thereafter kept increasing BC capacity percentage compared to traditional technologies like PERC and TOPCon.

JinkoSolar has filed a patent infringement lawsuit against Longi over tunnel oxide passivated contact (TOPCon) solar cell technology, with the first hearing scheduled for Feb. 13, 2025.
