

Mexico energy storage project tender announcement

Where is cenagas preparing a tender for more storage?

The discovery, in the Gulf of Mexico, took place in the Kan field, located in Block 30 of the Salina basin, offshore Tabasco. Alipi Mena also revealed that Cenagas is preparing the tender for more storage with the Brasil field, located in the northern border state of Tamaulipas, by December of this year.

Why did cenagas resume storage projects in February 2021?

Alipi said that the crisis of February 2021 made Cenagas resume storage projects, and "above all" ask if there was a market in order to avoid disbursement in infrastructure, and if there was interest in using it. The industry showed interest during public consultations this year and last year, which pushed Cenagas to launch the tender, he said.

Why is cenagas preparing a bidding base for acuyo & saramanko?

Cenagas is also contemplating the bidding of the depleted Acuyo and Saramanko fields, but it will take the gas control center a year and a half to present the bidding bases due to the lack of information on technical feasibility, since the existing data are for extraction, not gas injection. "The main thing about this is to maintain sovereignty.

Why did cenagas put the oil project on hold?

In 2018, Cenagas presented the bidding conditions for the project, but the government of President Andrés Manuel López Obrador put the project on hold, after criticizing the opening of the oil sector to private investment with the energy reform of former president of Enrique Peña Nieto in late 2013.

When will the JAF tender be released?

He added that by the end of July of this year the tender for the depleted Jaf field, located in Veracruz, will be launched, and the result will be published three to four months later. "We want to get it out as soon as possible, by the end of next month," Alipi said during the conversation in his office in Mexico City.

Will cenagas offer a storage service in 2021?

Cenagas' 2021 public consultation revealed that there are six companies interested in offering the 2.73-billion-cubic-feet storage service and 38 interested in using the strategic, operational and commercial storage service in depleted reservoirs, salt caverns and tanks.

This latest award accounts for 20% of the capacity allocated in Israel's first storage tender. In terms of the energy storage of the projects and duration of power, the company said ...

The Ministry of Environment and Natural Resources (Semarnat) last week conditionally authorised the construction of a transmission line for the Puerto Peñasco Photovoltaic Power Plant, a megaproject

Mexico energy storage project tender announcement

combining 1GW of ...

We provide real time updates on current and upcoming tender submissions for battery energy storage system (BESS) projects in Mexico, including project requirements, timelines, budgets, ...

SECI supported development of India's biggest solar-plus-storage project so far in Chhattisgarh (pictured), pairing 40MW/120MWh of battery storage with a 100MWac PV plant. Image: PIB Delhi . Solar Energy ...

Saudi Arabia's government entity tasked with procuring electricity generation projects has commenced the qualification process for a 2GW/8GWh battery storage tender. ...

Discover how Cenagas is leading the way with Mexico's first strategic natural gas storage tender. Learn more about the exciting developments in the energy industry.

From pv magazine Australia. The Australian government said a new national Capacity Investment Scheme (CIS) tender process will open in May seeking 6 GW of new variable renewable energy projects to ...

This first phase of the tender is procuring a 30 MW energy storage system, the Ministry said in an announcement issued on January 16. To continue reading, please visit our ...

Accordingly, SECI hereby wishes to invite proposals for setting up of ISTS-connected Pilot Projects of Standalone Battery Energy Storage Systems (BESS), for an ...

The latest Firm Dispatchable Renewable Energy (FDRE) tender, hosted by the Solar Energy Corporation of India (SECI), has selected winners. ... firm Sterling & Wilson's has been awarded a contract for 500MW/1,000MWh ...

Developers" scope of work would include setting up the transmission infrastructure to connect their power plants to the ISTS. SECI had made the tender technology agnostic in ...

Tendering authorities and private companies release thousands of contracts worth millions for procurement of Energy Storage. Global Tenders stands out as the largest platform ...

The 250MW/500MWh project is worth IR13.4 billion (US\$160.4 million), Gensol said in a 12 June announcement, noting that GUVNL could take a "greenshoe" option to expand the project to 500MW/1,000MWh which would ...

We have announced the results of Tender Round 3 - generation and long-duration storage infrastructure in NSW. Five projects representing 750 MW of renewable energy generation and ...

Mexico energy storage project tender announcement

On May 6, 2024, Mexico's Energy Regulation Commission (CRE) published on the National Commission for Regulatory Improvement (CONAMER) website the preliminary draft ...

According to a source at Cenagas, the operator of Mexico's natural gas pipeline grid, the energy ministry has approved the project, and it could be put out for tender next year if Mexico's ...

Future wind and solar energy projects in Mexico will be required to colocate battery energy storage systems equivalent to 30% of their capacity, a senior government ...

The Department of Mineral Resources and Energy (DMRE) is doing the procurements and has recently launched larger second and third rounds of BESIPPPP for projects at other substations. The tender's conditions ...
