

Mozambique is an energy storage company

How will Mozambique's new energy storage system work?

The project is the first IPP in Mozambique to integrate a utility scale energy storage system and includes an upgrade to the existing Cuamba substation. Electricity will be sold through a 25-year power purchase agreement with EDM.

Why is Mozambique a major energy exporter?

Mozambique is a net exporter of energy to countries in the Southern African Power Pool (SAPP) - South Africa being the largest importer. The government view energy exports as a key driver of the Mozambican economy, having passed a new electricity law that simplifies permitting and encourages IPPs activities.

What are Globeleq & source Energia doing in Mozambique?

Globeleq and Source Energia are also developing one of the first wind projects in Mozambique located near the town of Namaacha 40km west of Maputo. In addition, Globeleq has recently pre-qualified to compete for the 40 MWp Dondo solar power project in Sofala Province and has been selected for two 15MWp solar projects in neighbouring Eswatini.

What is EDM doing in Mozambique?

Marcelino Gil, EDM Chairman explained EDM's commitment to the country energy mix based on the abundance of resources in Mozambique, with the visibility to promote clean and renewable energy toward the commitment of universal access to energy to all Mozambicans by 2030.

What is Globeleq's first greenfield project in Mozambique?

The US\$36 million Cuamba Solar plant is also Globeleq's first greenfield project in Mozambique and the Group's first combined solar and storage plant in its operating portfolio.

Why should you invest in the Cuamba solar and storage plant?

"The Cuamba solar and storage plant will provide greater energy security and stability in this region of Mozambique and marks a turning point for the Cuamba district. Globeleq, Source Energia and EDM have all invested in this project - a public-private partnership that demonstrates the confidence of international investors in Mozambique.

We can also leverage long-term relationships with major energy companies. Mozambique expects rapid growth of its LNG expansion capacity, and Saipem has almost 50 years of experience in constructing LNG plants and infrastructures worldwide using advanced technology to liquefy, transport and regasify natural gas. ... The technical storage or ...

The first accounts of hydrocarbons in Mozambique date back to 1904, when explorers discovered thick sedimentary basins onshore Mozambique, but the poor technology and lack of funds halted those early

Mozambique is an energy storage company

exploration attempts. Extensive exploration by international oil companies started in 1948, mainly onshore with limited activity offshore.

Commercial operations at the 19MWp Cuamba Solar PV and 7MWh battery energy storage plant in Mozambique are officially underway. The plant supplies clean energy to Electricidade de Moçambique (EDM), the ...

Do you expect energy storage systems will become more prevalent in years to come? Globeleq sees battery storage as a key technology for Mozambique's future. Storage ...
