

## **Ndrc s latest energy storage project announcement**

What is China's new energy storage development plan?

On March 21, the National Development and Reform Commission (NDRC) and the National Energy Administration of China issued the New Energy Storage Development Plan During China's "14th Five-Year Plan" Period. The plan specified development goals for new energy storage in China, by 2025, new

When will new energy storage development be introduced?

The commission said earlier it will introduce a plan for new energy storage development for 2021-25 and beyond, while local energy authorities should also make plans for the scale and project layout of new energy storage systems in their regions.

What does NDRC stand for?

The National Development and Reform Commission (NDRC) and the National Energy Administration (NEA) recently issued a joint notice on deepening the pricing reform for electricity generated from renewable energy.

How will new energy storage technologies develop by 2030?

By 2030, new energy storage technologies will develop in a market-oriented way. Newer Post NDRC and the National Energy Administration of China Issued the Medium and Long Term Development Plan for Hydrogen Industry (2021-2035)

Are NDRC and Nea accelerating the push to expand investment?

Song Wen, deputy director of the Planning Department at the National Energy Administration, said the NDRC and the NEA are accelerating the push for the implementation and construction of key projects mapped out in the 14th Five-Year Plan to expand effective investment.

Will NDRC invest in new infrastructure construction?

Zhang Zhihua, deputy director of the NDRC's Department of Innovation and High-Tech Development, said he is optimistic about the investment in new infrastructure construction in the future, and the NDRC will ramp up efforts to support projects in the area.

Announcement . 2005 No.17 . The National Development and Reform Commission,Ministry of Science and Technology,Ministry of Water Resources,Ministry of Construction and Ministry of Agriculture have jointly worked out the China Water Conservation Technology Policy Outline to provide guidance to the development and application of water ...

Local energy authorities should plan for the scale and project layout of new energy storage systems in their regions, according to the NDRC, which will analyze and publish a plan for new ...

Economic Security Projects 01 Grain storage facilities Build high-standard grain storage facilities; Launch an initiative to enhance environmentally friendly grain storage; Organize a number of large grain logistics hubs and parks; Boost emergency distribution capacity and channel connectivity.

The announcement came after the NDRC held a video conference on the regulation of virtual currency mining activities earlier this month. During the conference, the NDRC urged local governments to take measures to further ...

Subscribe to Newsletter Energy-Storage.news meets the Long Duration Energy Storage Council Editor Andy Colthorpe speaks with Long Duration Energy Storage Council director of markets and technology Gabriel ...

The Chinese energy storage industry experienced rapid growth in recent years, with accumulated installed capacity soaring from 32.3 GW in 2019 to 59.4 GW in 2022. China's energy storage market size surpassed USD 93.9 billion last year and is anticipated to grow at a compound annual growth rate (CAGR) of 18.9% from 2023 to 2032.
