

# New energy storage equipment exhibition plan

When is energy storage International Conference & Expo 2025?

The 13th Energy Storage International Conference and Expo is scheduled for April 10-12, 2025, and will be held at Beijing New International Exhibition Center Phase II.

How many exhibition halls are there at the Energy Expo?

The expo will have 7 exhibition halls, inviting participation from power companies, power generation groups, grid companies, transmission and distribution operators, grid system operators and integrators, new energy manufacturers and investment institutions.

What is solar PV & energy storage World Expo 2025?

17th Solar PV & Energy Storage World EXPO 2025: 2000+ Exhibitors, Cutting-Edge Innovations, and a Must-Attend Tradeshow in China. The Solar PV & Energy Storage World Expo is a prominent business tradeshow dedicated to advancing the renewable energy transition.

What are the different types of energy storage services?

Energy Storage: EES, batteries, capacitors, energy storage components, and other energy storage technologies. Services: consulting, test institutes, certification, publishing media, digital marketing solutions, training courses, financial services, logistics services. Professional concurrent events :

How many exhibitors at PV Guangzhou 2025?

2000+ exhibitors, 180,000 square meters of show floor, 200,000 visitors. Who will showcase at PV Guangzhou 2025?

It covers six major industries: new energy, new energy vehicles, new materials, high-end equipment manufacturing, energy conservation and environmental protection, and information technology.

, 2025 ...

The exhibition will invite leading players to showcase the technology achievements and application experience covering the whole value chain of energy storage.

The theme of the conference is: Green, Digital Intelligence, Integration, and Innovation. It is expected to invite over 800 outstanding enterprises from more than 20 countries and regions ...

will invite authoritative experts and energy storage elites from national energy authorities, local governments, grid companies, power generation groups and owners, as well ...
