What is Cairo Tower?

Cairo Tower is a famous tourist attraction in Cairo that is made up of 8 million mosaic lozenges. The tower has a revolving restaurant on top, and offers 360-degree views across the city. The tower gives you a splendid view of Cairo from the top of the tower and has 62 floors.

What can you see from the Cairo Tower?

From the observation deck, visitors can gaze out over Cairo's sprawling cityscape. They can indulge in the sights of towering skyscrapers, bustling streets, and the meandering Nile River. During the day, the views from the Cairo Tower are nothing short of breathtaking.

What is Cairo Tower made of?

The Cairo Tower is made primarily of reinforced concrete, with a steel lattice structure that supports the observation deck. This deck, which is at a height of 150 meters, offers visitors a panoramic view of the surrounding cityscape. The exterior of the tower has intricate geometric patterns, reflecting the Egyptian traditional Islamic art.

Why should you visit Cairo Tower?

The exterior of the tower has intricate geometric patterns, reflecting the Egyptian traditional Islamic art. These patterns, combined with the tower's modernist aesthetic, create a visually striking contrast. One of the main attractions of the Cairo Tower is undoubtedly the stunning panoramic view it offers.

Is Cairo Tower a good place to see the Nile & Nile?

The tower has a revolving restaurant on top, and offers 360-degree views across the city. The tower gives you a splendid view of Cairo from the top of the tower and has 62 floors. I think it's better to go over there at night in order to see the Nile and the heavy traffic in the streets.

How to get to Cairo Tower?

Reaching the Cairo Tower is relatively easy, as it is in the heart of Cairo and is well-connected by various modes of transportation. If you are staying in central Cairo, you can easily reach the tower by taking a taxi or using ride-hailing services such as Uber or Careem.
