What is the London Energy Plan map?

The interactive map allows different scenarios for energy supply and demand across London in 2015, 2025 and 2050 to be explored (in that, it is similar to DECC's 2050 Energy Calculator). The London Energy Plan map can be accessed here. o Low demand, centralised supply.

What is the London Infrastructure Plan (LEP)?

The purpose of the LEP is to support the development of the London Infrastructure Plan by evaluating London's future energy needs to 2050, as a result of a rapidly increasing population (approximately 100,000 people a year) and the predicted increase in energy demand as a result of this growth.

What is the London Plan 2021 energy assessment guidance?

The Mayor's Energy Assessment Guidance was updated in 2022 to explain how the policies contained in the London Plan 2021 should be applied using Building Regulations Part L 2021. The updated guidelines continue to require a minimum 35% improvement in on-site regulated carbon emissions relative to Building Regulations Part L.

What is the London Plan?

offset payment. The London Plan is the overall strategic plan for London. It sets out a fully integrated economic, environmental, transport and social framework for the development of the capital to 2041. It forms part of the development plan for

Does the London Plan reduce energy consumption?

the London Plan. Having minimised energy consumption in the first instance, the efficient delivery of the remaining energy demands has been considered with reference to the heating and cooling hierarchy in

When did the GLA launch the London Energy Plan (LEP)?

23 February 2016: The GLA launched the first outputs from their forthcoming London Energy Plan (LEP) at an event held at the The Crystal.

Planning Application type and how the London Plan Guidance will be applied. All applications for . referable : development (outline, detailed and/or hybrid applications) are required to submit a Whole Life-Cycle Carbon (WLC) assessment. WLC assessments for non-referable major development are encouraged. Who is this guidance for?

Renewable power for London is one of the themes our collaborative Climate Programme covers. Its goal is to maximise local innovative energy and heat generation and ...
