

What is Port Moresby power station?

The Port Moresby Power Station will provide reliable power to Port Moresby and is the lowest cost dedicated grid connected thermal generation in the country. Replacing heavy fuel oil and diesel, the gas-fired power plant also brings a material reduction in the environmental impact from power generation in PNG.

What is the Port Moresby upgrade & rehabilitation project?

The upgrade and rehabilitation project will reduce cost and fossil fuel consumption, increase access, connectivity and improve network reliability on the Port Moresby power grid. The project will assist PNG Power to expand renewable energy generation, connect currently unserved customers and significantly improve the quality of electricity supply.
