

When is energy storage International Conference & Expo 2025?

The 13th Energy Storage International Conference and Expo is scheduled for April 10-12, 2025, and will be held at Beijing New International Exhibition Center Phase II.

How many exhibition halls are there at the Energy Expo?

The expo will have 7 exhibition halls, inviting participation from power companies, power generation groups, grid companies, transmission and distribution operators, grid system operators and integrators, new energy manufacturers and investment institutions.

What is a power industry expo?

The expo will span seven exhibition halls and welcome participation from power companies, generation groups, grid operators, transmission and distribution companies, system integrators, new energy manufacturers, and investment institutions.

Why should you attend the energy storage Conference?

This influential gathering will feature high-level industry reports and high-end dialogues, creating a major platform for academic exchange and collaboration within the energy storage sector. The event will also place a stronger emphasis on international outreach and promotion.

What is Mobile Energy Policy Conference?

The conference will bring together Policymaker, senior experts, market leaders, international financial institutions and advisory bodies as well as authoritative media in mobile energy industry, to exchange views on hot topics regarding mobile energy policy, market, technology application, business model and project development, etc.
