

# Prospects for warehouse managers in energy storage companies

What does a warehouse manager do?

Warehouse managers oversee the efficient receipt, storage and dispatch of a range of goods. As a warehouse manager, you are responsible for a vital part of the supply chain process. You'll manage people, processes and systems in order to ensure goods are received, stored and dispatched appropriately, and that productivity targets are met.

What warehousing jobs does Keith McLane have?

Keith has held several roles in the warehousing industry, including shipping manager and receiving manager at Costco, later working as a Warehouse Manager for McLane Company, Inc. before taking his current role as Warehouse Operations Manager for KeHE Distributors.

Are you looking for a warehouse manager?

As one contributor points out, companies are no longer seeking warehouse managers with the basic warehousing skills but are looking for leaders who can build and manage teams and handle the many pressures and demands that the job entails.

Is warehouse management a specialism?

Warehouse management can be seen as a specialism within the wider context of logistics, transport and supply chain management. This means that training, especially with a large operator, is likely to include other areas, such as transport management and administration.

Who are the biggest employers for warehouse professionals?

Retailers are one of the biggest employers for warehouse professionals, and the market is growing thanks to the increasing number of online retailers maintaining their own warehouses. Here are a few of the biggest names in the retail space offering opportunities for warehouse managers and other warehousing staff.

Do you need a postgraduate degree to become a warehouse manager?

You don't need a postgraduate degree to become a warehouse manager. However, a Masters in logistics and supply chain management may help give you the edge with some employers, especially if the course provides placement opportunities to give you practical experience. Search postgraduate courses in logistics and supply chain management.
