

# Sao tome and principe government energy storage industry

Does Sao Tome & Principe have electricity?

The World Bank says Sao Tome and Principe has an electricity access rate of around 76%, with 92% of the total coming from imported diesel. The government has vowed to increase the proportion of renewable energy from 5% of the energy mix to 50% by 2030. This content is protected by copyright and may not be reused.

Will Sao Tome & Principe get a 2 MW solar project?

The island nation of Sao Tome and Principe switched on the initial phase of its first 2 MW solar project in August. Construction of 1.4 MW of PV capacity is now underway at two airports, and developers plan to install a total of 1.7 MW by 2023.

How can Sao Tome and Principe improve economic growth?

Sao Tome and Principe has much to do to decrease its high poverty rate, create jobs, and increase its economic growth. Despite some improvements in education and access to healthcare, the country still faces significant economic challenges.

When will a 300 kW power plant be installed in Sao Tome?

Cleanwatts told pv magazine that it started developing 1.1 MW at Sao Tome airport and 300 kWp at Principe airport in August. It expects to complete the arrays by the end of this year. Another 300 kWp will be installed next year at other communities in Sao Tome.
