

How many solar PV projects are in Tashkent & Samarkand?

The agreements include the development of three solar photovoltaic (PV) projects in Tashkent and Samarkand and three Battery Energy Storage Systems (BESS) in Tashkent, Bukhara and Samarkand, with a total capacity of 1.4 GW of additional renewable energy and 1.5 GWh of additional battery storage capacity.

What's going on with the Tashkent Riverside Project in Uzbekistan?

From pv magazine ESS News site Saudi-listed ACWA Power has announced the completion of the dry financial close for the \$533 million Tashkent Riverside project in Uzbekistan, near the country's capital city of Tashkent. The greenfield development will involve a 200 MW solar plant and a 500 MWh BESS that will serve to stabilize the Uzbek grid.

What are the Tashkent projects?

The Tashkent projects will include a 400 MW PV plant and 500 MWh BESS, while two 500 MW PV projects each and a 500 MWh BESS will be developed in Samarkand. Another 500 MWh BESS will be located in Bukhara, and the project will include overhead transmission lines to help dispatch power to the grid.

Will Uzbekistan fund a 250-megawatt solar photovoltaic plant?

TASHKENT, May 21, 2024 -- The World Bank Group, Abu Dhabi Future Energy Company PJSC (Masdar), and the Government of Uzbekistan have signed a financial package to fund a 250-megawatt (MW) solar photovoltaic plant with a 63-MW battery energy storage system (BESS).

Who will sell electricity to in Uzbekistan?

The project company is committed to selling electricity to the state-owned National Electric Grid of Uzbekistan JSC under a 25-year Power Purchase Agreement for the project, including a 10-year operating term for the BESS component, signed by these two entities.

How will Uzbekistan improve its energy security?

"This project will enhance Uzbekistan's energy security through the use of innovative solutions and technologies," noted Marco Mantovanelli, World Bank Country Manager for Uzbekistan.

Uzbekistan allocated UZS 12.18bn (\$940,903) in subsidies to citizens under the Solar Home program in 2024 for the electricity generated by their solar panels, according to the Tax Committee's press service.
