

Who owns TCL SunPower?

TCL Technology Group Corporation announced today the launch of its new TCL SunPower Global energy business unit. The move follows the acquisition of a majority stake in Singapore-based solar module manufacturer Maxeon, which holds the patent related to Sunpower's interdigitated back-contact (IBC) and other solar module technologies, by TCL's unit TCL-TZE.

What is the TCL split-type residential energy storage system?

The TCL Split-Type Residential Energy Storage System seamlessly integrates a hybrid inverter and LFP batteries. It satisfies both new installations and retrofitting into existing on-grid systems. The product offers continuous power supply for homes (emergency backup), reduces electricity purchase costs, and leverages peak/off-peak pricing benefits.

Who is TCL photovoltaic technology?

TCL Photovoltaic Technology is a green energy full-lifecycle smart service provider that offers one-stop solutions integrating development, manufacturing, and energy management. Founded in 1981, TCL has grown into a globally competitive intelligent technology industry group over its 42-year development history.

Does Tcl have a new business structure?

Given this, we're confident that our new, more agile business structure, leveraging the highly regarded SunPower brand, positions us at the cutting edge of the industry," said TCL Vice President Sales, Vincent Maurice. TCL is also active in the PV manufacturing industry in China through its solar wafer unit TCL Zhonghuan.
