

What is the warranty for home energy storage batteries

Does a battery storage system need a warranty?

A battery storage system is a decades-long investment that a warranty can help protect. The less power your system stores, the more your home may need to draw from the utility company, which eats into your savings. A good warranty ensures that if your battery experiences a problem, that it will be replaced and your investment will be protected.

What is a solar battery warranty?

Solar battery warranties vary by manufacturer and product. A standard battery warranty should come with at least 10 years of protection, though it can be shorter depending on how often you charge and drain your battery.

What is the warranty period for the battery?

Each battery is Manufactured certified for sale in India, charged and fully ready for use. Warranty: All batteries are covered by an official manufacturer's warranty from 1 to 4 years.
