## Will energy storage companies attend

Is energy storage a good idea for small businesses?

On a smaller scale, energy storage is unlocking new economic opportunities for small businesses. By integrating renewable power with agriculture, individuals can store and supply excess energy, enhancing national grid resilience and diversity while generating profit. China has been a global leader in renewable energy for a decade.

How much money is invested in energy storage?

Investment in energy storage is growing by leaps and bounds. In 2023, more than 35 billion dollars were invested, 70% more than the previous year, and in 2024, for the first time, 100GWh of capacity will be reached. The year 2025 will mark the beginning of the transformation that the sector has been waiting...

Who sponsors the energy storage Conference 2025?

As the first exhibition of the energy storage industry in 2025, this conference is sponsored by BYDand the dinner is sponsored by Sineng Electric.

Why did we attend the Cesc international energy storage Conference?

The CESC International Energy Storage Conference provided us with a broad communication platform, where we met many industry elites and gained a lot. The conference was well organized and the presentations were rich in content, which gave us confidence in the future of the energy storage industry.

What is the Energy Storage Summit?

From high-level keynotes to intimate working groups, the Summit offers a comprehensive exploration of the industry's most critical topics. With 175+ speakers, podcasts, engaging debates, and niche sessions, there's something to ignite the passion of every attendee. The Energy Storage Summit offers more than just exceptional content.

Why is China promoting energy storage at the 2025 two sessions?

The buzzword "energy storage" at the 2025 Two Sessions underscores China's strategic focus on building a resilient, sustainable, and diverse energy system, contributing new efforts to a sustainable global future. The country's progress in new-type energy storage highlights how innovation can drive both economic and environmental progress worldwide.

Numerous stakeholders will participate at the World Energy Storage Conference, including 1. industry leaders, who represent technological innovations; 2. governmental ...

Held alongside the Battery Show Expo Europe in Stuttgart, Germany (3-5 June 2025) this Summit brings together the key players driving the country's utility-scale storage boom. With ...

The China Energy Storage Alliance is a non-profit industry association dedicated to promoting energy storage
