

Zhongyuan business park currently has no energy storage products

What is Zhongyuan gas storage cluster?

The Zhongyuan gas storage cluster comprises three blocks including the Wen 96, Wen 23, and Wei 11. The new gas storage cluster in North China has 10 billion cubic meters capacity. Credit: SINOPEC / PRNewswire.

How many gas storage centers are there in Zhongyuan?

The Zhongyuan gas storage group is currently made up of three gas storage centers- Wen 23, Wen 96 and Wei 11. The newly built Wei 11 gas storage center is a vital component of the Zhongyuan gas storage group with a maximum capacity of 1.009 billion cubic meters. It can meet the daily natural gas usage needs of 10 million families.

Which country has the largest underground gas storage cluster in North China?

China Petroleum & Chemical Corporation (Sinopec) has commissioned the largest underground natural gas storage cluster with 10.03 billion cubic metres (bcm) capacity in north China. The launch of the gas storage cluster follows the completion of the first gas injection by the Wei 11 gas storage facility in the Zhongyuan Oilfield region.

How many cubic meters will China's new gas storage centers hold?

It is estimated that the capacity of the two newly built gas storage centers will be 1.116 billion cubic meters, according to Sinopec.

Will Sinopec build a new gas storage facility?

Sinopec plans to commission the Wen 13 West and Bai 9 gas storage facilities by the end of this year. These two facilities are expected to add about 1.116 bcm of gas storage capacity, further boosting the firm's gas storage and peak shaving capacities.

Is energy storage a key innovation field in China?

In November 2014, the State Council of China issued the Strategic Action Plan for energy development (2014-2020), confirming energy storage as one of the 9 key innovation fields and 20 key innovation directions.

The Zhongyuan gas storage cluster currently comprises three blocks - the Wen 23, Wen 96 and Wei 11. In a press statement, the firm said: "The Wei 11 gas storage facility that's now up and running is a key component ...
